TORNADO CLOUD TOYS WITH CAR

LINCOLN, Neb., May 14.—The tail end of the tornado cloud, which wrecked part of Seward for a time enveloped a Union Pacific motor car en route from Wahoo to Lincoln. The car was struck between Agnew and Raymond and for several minutes rushed on through the whitrling wind, the passengers expecting to be hurled from the rails at any moment.

verely cut across the forchead. He was supposed to have been quite seriously hurt and immediately upon arrival at Lincoln was placed under the care of the company's surgeon.

C. H. Worrell of Wahoo was cut by glass and a small particle was imbedded in his right leg. Other passengers re-ceived minor injuries from the same cause.

Instead of stopping the car the motor-

man drove steadily on at a speed of twen-ty-five miles an hour. It was dark and the passengers sat silent, fearing that they would leave the track at any in-stant. As soon as they omerged from the tornado they found themselves in a terrific rainstorm.

YORK, Neb., May 14.—A series of tor-nadoes which had their climax at Seward, struck the towns of McCool Junction, Lushton and Grafton, east of here, just before 6 o'clock tonight. Numerous build-ings were demolished, but the number of casualties, if any, is not known.

Omaha Again Visited.

S OMAHA. May 14.—A storm of tornadic fury struck the southern part of Omaha at 7 o'clock this evening, unroofing numerous houses in the vicinity of Thirteenth and Fold streets and doing other damage. No person is reported injured. Coming so quickly after the Easter tornado, in which more than 100 lives were lost, many hundreds of south-end inhabiliants rushed to cellars and other places of refuge, and in other parts of the city many persons were in a nervous state until the storm had passed. Three inches of rain fell in the downtown district.

The storm which struck this city was apparently the tail-end of the tornado that hit Seward and other towns southeast of here. Its course through Omaha was nearly east and west and it spent its fury crossing the valley of the Missouri river. In its path across the city many trees were blown down, windows smashed, several roofs carried away and other damage done.

The storm continued its course into lowa, where tonight it resolved itself into rains and thunderstorms, with consider able wind.

persons are reported killed at Tomaro and several at McCool Junction. Both are cut off from communication with the out-side tonight.

Slight Damage in Iowa.

DES MOINES, Ia. May 14.—lowa was visited tonight by a severe rain and electrical storm, two inches of water falling in barts of the state. High winds did slight damage at Council Bluffs, in the western part of the state, while hall riddled vegetation at Burlington in the eastern part. Wire reports from all parts of the state reveal little actual damage.

Drops Into Oklahoma.

CHATTANOOGA, Okla. May 14—The Christian church, the Bank of Chattanooga building and a schoolbouse were wrecked by a heavy windstorm here late this afternoon. The school children had been dismissed fifteen minutes before the storm struck. No one was killed or injured.

Crops were almost totally destroyed in a strip of territory six miles wide through Comanche county.

Damage in Kansas.

TOPEKA. Kan., May 14.—Severe wind, rain and halistorms were reported from various parts of Kansas tonight.

At Newton two inches of rain fell in half an hour and hall fell for twenty minutes. Many residences and business houses were flooded and dozens of small bridges in the vicinity were washed out. Sand creek, running through the city, overflowed its banks.

Windstorms near Abilene and Junction City blew down many farm buildings, and the fruit and other crops suffered much damage.

Diamond Tire users get maximum mileage at minimum expense

In our engineering department we have men who have made a

life business of tire construction.

That's why, in Diamond Tires, you get a tough, elastic, wearresisting tire, as well as a side wall that will not break above the bead-a

No-Clinch construction that prevents rim cutting.

Diamond (No Clinch) rires

In an effort to give you the greatest mileage at the least expense, our engineers discovered Perfect

like grip. Another advance step in tire construction is the more air-room, insuring more resiliency and greater ability to withstand shocks

and strains - another exclusive

Diamond more mileage advantage
